Bonus Feature:

Life really is fun and games in this hilarious slot! Join the most famous faces of US currency in their comical attempt to get their faces on a higher bill than the one they've been stuck on for years.

When 3 or more identical Bonus Symbols index in any position on an active payline, a binocularular view will search the bonus area to find them. Could they be breaking into a higher value bill house, partying at the Political Hot Spot, or relaxing in their own bill house? When found, a multiplier will be awarded based on their location that will multiply the total line bet.

The Player will have fun watching the entertaining bonus round unfold before their eyes! For example, if Washington is found breaking into Franklin's 100 bill house, the Player will root him on since if he gets in, the Player's line bet will be multiplied by 100! If unsuccessful, the Player will win that presidents value, which for Washington is only a 1X.

If a President is located at the Political Party Hot Spot, the animated pick and pay bonus is activated. The Player will select from 3 bonus games. Please see the following page for examples.
