**Bonus Feature:**

It's time for Players to cash in on those close-call jackpots!

Close But No Cigar features a highly volatile bonus game that's activated on any active payline when 2 or more identical symbols index from left to right with one non-matching symbol. When activated, one of the identical symbols will illuminate on the top box video screen grid. The bonus is awarded when a full row of symbols are illuminated, at which time that row resets.
