Bonus Activating Symbol:

Bonus Feature:

Jackpots are erupting daily at Jackpot Springs! Animated Springs are featured above each reel on the top box video bonus.

When a  indexes on any active payline, the player will press the "Eruption" button on the main screen and the Spring above that reel will begin to erupt and stop on a number or multiplier.

If a number is illuminated, the Player will be awarded the amount in bonus credits and the bonus will end.

If a multiplier is illuminated, the line bet will be multiplied, and the Player will advance to the next spring.

If another multiplier is illuminated, the two multipliers will be multiplied and the total will multiply the line bet, and the Player will advance to the next spring.

Any additional multipliers that are awarded will be multiplied in the same manner.

Although the example on the right displays 3 Springs, the animation will display 5, one for each reel.
