

# Bottle CAPS

POP THE TOP TO WIN!

**Configuration:** 3 Reels  
**Number of Lines:** 1-9  
**Denomination:** Multi  
**Class:** II, III

**Symbols:**

**Bonus Features:**

Each time the reels spin, a new bottle cap that activates the bonus is selected. As displayed (right), the Grape bottle cap activates the Pop the Top Bonus for this spin.

The Player will select 3 bottles for each Grape Bottle Cap that indexed on any active payline. The Player will win bonus credits and / or multipliers for each bottle they select that is grape soda (i.e. whatever the winning bonus cap is).

The bottles in the top game always change to the color of the bonus activating bottle cap until the bonus game begins, at which time the lights in the bottles turn off until the Player makes a selection by pressing the corresponding numbered buttons on the topper.

When a bottle is selected, it turns the color of the bottle cap that it represents (i.e. grape would turn the bottle purple as shown), and a pop and fiz sound is played as the top pops open to reveal the color of the bottle cap on a small LCD screen under the bottle cap.

The Player will continue selecting bottles until the bonus is over. If no matching bottles are found, a door prize is awarded.
